

Public Administration

Combined Quiz Review: Quizzes 1–3

Questions, correct answers, lecture-based rationales, and answer keys

Section	Content	Items
Quiz 1	Chapter One: Public Administration	60 (25 T/F + 35 MC)
Quiz 2	Chapter Two: Public vs. Private Organizations	50 (20 T/F + 30 MC)
Quiz 3	Chapter Three: Economic and Social Dimensions	50 (25 T/F + 25 MC)

Verification Report and Notes

Verification result. Every answer for all three quizzes (160 items) was re-checked against the slide text of the three lectures. **All 160 answers are correct; no answer needed to be changed.** One correction concerns my earlier chat messages, not the answers themselves: the one-line “Quick key” summaries I posted for the **Quiz 1 multiple-choice section (Q26–60)** and the **Quiz 3 multiple-choice section (Q26–50)** contained transcription errors (12 entries in Quiz 1, 7 in Quiz 3). The per-question answers in those messages were right. The answer keys in this PDF are built directly from the verified answers and replace those summary lines.

Notes on source material (stated explicitly rather than guessed):

- Numbering. In the Quiz 2 and Quiz 3 files the True/False statements carry no visible numbers (they appear to be auto-numbered lists). They are numbered 1–20 (Quiz 2) and 1–25 (Quiz 3) here in file order. The first multiple-choice question of Quiz 3 is also unnumbered; it is shown as Q26 to continue the sequence (the next printed number is 27).
- Quiz 2, Q24 is the one question with genuine ambiguity. Slide 4 lists only two reasons (taxes; control of citizens’ behavior), so both option C and option D are absent from that slide. D (private shareholder returns) is chosen because it is the only option the lecture contradicts; C is consistent with the government’s social objectives on Slide 2.
- Quiz 1, Q26 and Q59, and Quiz 3, Q16, Q31 and Q39, are close inferences from the slides, not word-for-word quotes. The correct options are the only ones consistent with the slide content, and each rationale says so.
- All answers and rationales come from the lecture slides only. No external source was needed, so no outside material appears in this document.
- Slide numbers cited in rationales refer to the slide order in each chapter’s PowerPoint file. Quoted text is reproduced exactly as written on the slides, including minor wording errors.

✓ **Highlighted**

= the correct answer. Each question is followed by its rationale from the lecture.

Quiz 1 — Chapter One: Public Administration

Source lecture: Chapter One (Introduction to Public Administration), Dr. Ayah Rabie, 25 slides.

Original quiz title: Chapter One : Public Administration

Section A: True or False

1. **Public administration can be adequately defined by relying exclusively on the managerial perspective because public administration is primarily concerned with the executive function of government.**

T. True

✓ **F. False**

Correct answer: False. *Rationale:* Ch.1 Slide 7: "We can't rely on one perspective only to reach for better definition of PA." The managerial view alone is not enough.

2. **From the political perspective, public administration includes activities undertaken for the public interest.**

✓ **T. True**

F. False

Correct answer: True. *Rationale:* Slide 3 (Political): "It is working for public interest."

3. **The political perspective views public administration as doing collectively what individuals cannot accomplish individually.**

✓ **T. True**

F. False

Correct answer: True. *Rationale:* Slide 3 (Political): "It is doing collectively what can't be done individually."

4. **From the legal perspective, public administration is described as "law in action."**

✓ **T. True**

F. False

Correct answer: True. *Rationale:* Slide 4 (Legal): "It is law in action."

5. **According to the legal perspective presented in the chapter, government should interfere extensively in the private lives of citizens.**

T. True

✓ **F. False**

Correct answer: False. *Rationale:* Slide 4: "From a legal perspective, the government should not interfere in the life of the citizens."

6. **The managerial perspective identifies public administration as the executive function of government.**

✓ **T. True**

F. False

Correct answer: True. *Rationale:* Slide 5 (Managerial): "It is the executive function of the government."

7. **The occupational perspective considers public administration to be whatever the public employee does.**

✓ **T. True**

F. False

Correct answer: True. *Rationale:* Slide 6 (Occupational): "It is whatever the public employee does."

8. Public administration as an academic field applies both the art and science of management to the public sector.

☒ **T. True** ☐ F. False

Correct answer: True. *Rationale:* Slide 6: “an academic field of applying both the art and the science of management in the public sector.”

9. The chapter argues that one perspective alone is sufficient for reaching a better definition of public administration.

☐ T. True ☒ **F. False**

Correct answer: False. *Rationale:* Slide 7: one perspective alone is not enough; all perspectives must be considered.

10. The comprehensive perspective defines public administration in terms of governmental activities aimed at serving communities, achieving common good, and providing goods and services.

☒ **T. True** ☐ F. False

Correct answer: True. *Rationale:* Slide 8: “All the activities undertaken by the governments to serve their communities by working for common good and creating positive change through the provision of goods and services.”

11. Public administration involves decisions concerning the use of public resources for maximum public good.

☒ **T. True** ☐ F. False

Correct answer: True. *Rationale:* Slide 9: “Public Administration involves taking decisions that affect the use of public resources for maximum public good.”

12. Public administration professionals operate only at the federal level because local and state governments do not constitute levels of public administration.

☐ T. True ☒ **F. False**

Correct answer: False. *Rationale:* Slide 9: professionals manage at “All governmental levels (local, state, and federal).”

13. Relationships between different levels of government within one country can represent a growing public administration problem.

☒ **T. True** ☐ F. False

Correct answer: True. *Rationale:* Slide 10: “The relationships between different levels of government within a single country represent a growing problem of public administration.”

14. Public administration exists only in countries that follow a particular system of government.

☐ T. True ☒ **F. False**

Correct answer: False. *Rationale:* Slide 10: “Public administration is a feature of all countries, regardless of their system of government.”

15. Civil servants and professional scientific civil servants both work for the government.

☒ **T. True** ☐ F. False

Correct answer: True. *Rationale:* Slide 11: “Civil servants and professional civil servants work for the government.”

16. A civil servant, as defined in the chapter, performs a political, military, or constabulary role.

T. True

✓ **F. False**

Correct answer: False. *Rationale:* Slide 12: a civil servant's "role is not political, military, or constabulary."

17. Professional scientific civil servants provide technical support rather than general administrative support.

✓ **T. True**

F. False

Correct answer: True. *Rationale:* Slide 13: "They are the parties that provide technical support rather than general administrative support."

18. Police, justice, and military personnel are given in the chapter as examples of professional scientific civil servants.

✓ **T. True**

F. False

Correct answer: True. *Rationale:* Slide 13: "Ex: police, justice, military."

19. Protecting citizens' lives and properties is one of the public purposes of government.

✓ **T. True**

F. False

Correct answer: True. *Rationale:* Slide 14, purpose 1: "Protecting the lives and the properties of the citizens."

20. The supply of essential products and services is excluded from the public purposes of government because these activities belong exclusively to the private sector.

T. True

✓ **F. False**

Correct answer: False. *Rationale:* Slide 14, purpose 2: "Insuring the supply of all the essential products and services (food/water/energy/medical care)" is itself a public purpose of government.

21. The purposes of government are independent of one another and generally do not reinforce each other.

T. True

✓ **F. False**

Correct answer: False. *Rationale:* Slide 16: "The purposes of the government overlap and reinforce each other."

22. Planning seeks to reduce uncertainty faced by decision makers by considering the future and possible choices.

✓ **T. True**

F. False

Correct answer: True. *Rationale:* Slides 18 and 20: planning reduces uncertainty by assessing the future and identifying the available choices.

23. Planning requires the future to be assessed with complete accuracy before decisions can be made.

T. True

✓ **F. False**

Correct answer: False. *Rationale:* Slide 20: "Although the future can't be assessed with 100% accuracy, planners can..." identify choices and possible outcomes.

24. Coordination includes securing cooperation and teamwork and dealing with conflicts, overlapping situations, and working at cross-purposes.

✓ **T. True** F. False

Correct answer: True. *Rationale:* Slide 22: "Securing co-operation and team work... Removing conflicts and working at cross purposes and overlapping situation."

25. Budget allocation can be used as a mechanism for carrying out the controlling function in public administration.

✓ **T. True** F. False

Correct answer: True. *Rationale:* Slide 25: "Allocation of funds is one way of controlling public administration."

Section B: Multiple Choice Questions

26. Which statement most accurately reflects the chapter's reason for using multiple perspectives when defining public administration?

A. Public administration has no stable meaning.

✓ **B. Each perspective reveals a different dimension of public administration.**

C. The managerial perspective is incorrect.

D. The political perspective completely replaces the other perspectives.

Correct answer: B. *Rationale:* Slides 2 and 7: PA is handled from several perspectives and cannot be defined from one only, so each perspective contributes part of the definition. (Close inference from the slides.)

27. A government activity is justified primarily because it addresses something that individuals cannot accomplish independently. Which perspective is most directly reflected?

A. Legal

B. Occupational

✓ **C. Political**

D. Managerial

Correct answer: C. *Rationale:* Slide 3 (Political): "It is doing collectively what can't be done individually."

28. The expression "law in action" is associated with which perspective?

A. Political

✓ **B. Legal**

C. Managerial

D. Occupational

Correct answer: B. *Rationale:* Slide 4 (Legal): "It is law in action."

29. Which of the following is NOT one of the perspectives used in the chapter to discuss public administration?

- A. Political
- B. Legal
- C. Managerial

✓ **D. Financial**

Correct answer: D. *Rationale:* Slide 2 lists the perspectives as Political, Legal, Managerial and Occupational. Financial is not one of them.

30. A researcher defines public administration as the executive function of government. This definition most directly reflects the:

- A. Political perspective
- B. Legal perspective

✓ **C. Managerial perspective**

- D. Occupational perspective

Correct answer: C. *Rationale:* Slide 5 (Managerial): "It is the executive function of the government."

31. Which statement best represents the occupational perspective?

- A. Public administration is law in action.
- B. Public administration is what the government does.

✓ **C. Public administration is whatever the public employee does.**

- D. Public administration is the allocation of public resources.

Correct answer: C. *Rationale:* Slide 6 (Occupational): "It is whatever the public employee does."

32. Which conclusion is most consistent with the comprehensive perspective?

- A. Public administration is limited to government employees.
- B. Public administration concerns only administrative procedures.

✓ **C. Public administration encompasses governmental activities serving communities and pursuing common good.**

- D. Public administration is exclusively concerned with enforcing laws.

Correct answer: C. *Rationale:* Slide 8 (Comprehensive): activities by governments "to serve their communities by working for common good."

33. Which of the following best illustrates public administration's concern with public resources?

- A. A private consumer choosing between two brands

✓ **B. A government department deciding how to allocate its available funds**

- C. An individual selecting a university course
- D. A private firm changing its packaging

Correct answer: B. *Rationale:* Slide 9: PA involves decisions on "the use of public resources for maximum public good"; allocating funds is such a decision.

34. According to the chapter, public administration professionals manage at:

- A. Only the federal level
- B. Only the local level

✓ **C. Local, state, and federal levels**

- D. Only the state level

Correct answer: C. *Rationale:* Slide 9: "All governmental levels (local, state, and federal)."

35. Which issue is specifically identified as a growing problem of public administration?

- A. Competition between private companies

✓ **B. Relationships between different levels of government within one country**

- C. Differences between consumer preferences
- D. International tourism

Correct answer: B. *Rationale:* Slide 10: relationships between levels of government within a single country are "a growing problem of public administration."

36. Which statement is consistent with the chapter?

- A. Public administration is found only in democratic systems.

✓ **B. Public administration is a feature of all countries regardless of their system of government.**

- C. Public administration exists only in federal countries.
- D. Public administration exists only where civil servants are politically appointed.

Correct answer: B. *Rationale:* Slide 10: "Public administration is a feature of all countries, regardless of their system of government."

37. Which characteristic distinguishes a civil servant according to the chapter?

- A. The person must perform a military function.
- B. The person must perform a political function.

✓ **C. The person's role is directly connected with internal affairs and is not political, military, or constabulary.**

- D. The person must provide technical support exclusively.

Correct answer: C. *Rationale:* Slide 12: a civil servant is employed in the internal affairs of the country "and whose role is not political, military, or constabulary."

38. Which of the following is identified as an example of professional scientific civil servants?

- A. Marketing managers
- B. Retail employees

✓ **C. Police personnel**

- D. Private consultants

Correct answer: C. *Rationale:* Slide 13: "Ex: police, justice, military."

39. Professional scientific civil servants are primarily associated with:

✓ **A. Technical support**

- B. Political campaigning
- C. Private-sector management
- D. Consumer research

Correct answer: A. *Rationale:* Slide 13: they “provide technical support rather than general administrative support.”

40. Which of the following is NOT listed as a public purpose of government?

- A. Environmental protection
- B. Protecting lives and properties
- C. Promoting scientific and technological advancement

✓ **D. Maximizing private corporate profits**

Correct answer: D. *Rationale:* Slides 14–15 list the seven public purposes; maximizing private corporate profits is not among them.

41. Ensuring the availability of food, water, energy, and medical care represents which government purpose?

- A. Environmental protection

✓ **B. Supplying essential products and services**

- C. Scientific advancement
- D. Maintaining governmental hierarchy

Correct answer: B. *Rationale:* Slide 14, purpose 2: “Insuring the supply of all the essential products and services (food/water/energy/medical care).”

42. Government support for people who cannot care for themselves primarily reflects:

- A. Protection of private property

✓ **B. Provision of support for vulnerable individuals**

- C. Promotion of technological advancement
- D. Administrative coordination

Correct answer: B. *Rationale:* Slide 14, purpose 3: “Providing support for those who can’t care for themselves or have others to care for them.”

43. Which combination contains only public purposes identified in the chapter?

✓ **A. Environmental protection, balanced economic growth, quality of life**

- B. Corporate profitability, advertising, market share
- C. Political campaigning, private investment, consumer loyalty
- D. Brand development, exports, private consumption

Correct answer: A. *Rationale:* Slide 15: “The promotion of balanced economic growth... Environmental protection... Maintaining the quality of life.” Every item in A is a listed purpose.

44. The chapter states that the different purposes of government:

- A. Conflict with each other in most circumstances
- B. Are unrelated to each other

✓ **C. Overlap and reinforce each other**

- D. Apply only to local governments

Correct answer: C. *Rationale:* Slide 16: "The purposes of the government overlap and reinforce each other."

45. Which public administration function is primarily concerned with assessing the future and setting goals?

- A. Organizing

✓ **B. Planning**

- C. Coordinating
- D. Controlling

Correct answer: B. *Rationale:* Slide 18: planning involves "Assessing the future. Participating in setting future goals. Setting goals for plan achievement."

46. One major purpose of planning is to:

- A. Eliminate all uncertainty

✓ **B. Reduce the uncertainty faced by decision makers**

- C. Prevent organizational change
- D. Replace decision makers

Correct answer: B. *Rationale:* Slide 18: "Planning is used to reduce the uncertainty faced by the decision maker."

47. Why has the importance of planning increased in public administration according to the chapter?

- A. Because governments no longer need budgets

✓ **B. Because of rapid technological changes**

- C. Because coordination is no longer necessary
- D. Because public organizations have stopped changing

Correct answer: B. *Rationale:* Slide 19: planning's importance "has increased due to the rapid technological changes."

48. Which statement correctly reflects the chapter's treatment of forecasting the future?

- A. The future can be assessed with 100% accuracy.
- B. The future cannot be assessed at all.

✓ **C. Although the future cannot be assessed with complete accuracy, planners can identify available choices and possible outcomes.**

- D. Planning requires no consideration of possible outcomes.

Correct answer: C. *Rationale:* Slide 20: "Although the future can't be assessed with 100% accuracy, planners can... identify the choices... [and] the possible outcomes."

49. A public organization redesigns its internal components to facilitate achievement of organizational goals. Which function is being performed?

A. Planning

✓ **B. Organizing**

C. Coordinating

D. Controlling

Correct answer: B. *Rationale:* Slide 21 (Organizing): to “design, and arrange the components of internal environment of the public organization to facilitate attainment of the organizational goals.”

50. Which activity most clearly represents coordination?

A. Establishing future organizational goals

B. Designing the internal structure

✓ **C. Securing cooperation and teamwork among employees**

D. Preparing the annual budget

Correct answer: C. *Rationale:* Slide 22 (Coordinating): “Securing co-operation and team work among several employees.”

51. A department experiences overlapping responsibilities and employees working at cross-purposes. Which function most directly addresses this situation?

A. Planning

B. Organizing

✓ **C. Coordinating**

D. Forecasting

Correct answer: C. *Rationale:* Slide 22: coordination means “Removing conflicts and working at cross purposes and overlapping situation.”

52. According to the chapter, the purpose of control is to:

A. Eliminate public organizations

✓ **B. Remove obstacles**

C. Replace planning

D. Increase uncertainty

Correct answer: B. *Rationale:* Slide 23: “The purpose of control is to remove the obstacles.”

53. Which statement best reflects the controlling function?

A. It concerns only employee recruitment.

✓ **B. It enables the public organization to interact with its environment and situations arising within it.**

C. It is limited to setting future objectives.

D. It focuses exclusively on teamwork.

Correct answer: B. *Rationale:* Slide 24: “Controlling enables the public organization to interact with the environment around it or the situation that arises within it.”

54. Which of the following is specifically identified as a way of carrying out the controlling function?

✓ **A. Allocation of funds**

- B. Advertising
- C. Market segmentation
- D. Product differentiation

Correct answer: A. *Rationale:* Slide 25: "Allocation of funds is one way of controlling public administration."

55. A public administration branch is required to prepare a budget explaining how requested funds will be spent. This primarily illustrates:

- A. Planning only
- B. Organizing only

✓ **C. Controlling through allocation of funds**

- D. Coordination through teamwork

Correct answer: C. *Rationale:* Slide 25: each branch prepares a budget showing how funds will be spent; this is controlling through allocation of funds.

56. A government agency examines future conditions, identifies alternative courses of action, and considers the possible outcomes associated with each alternative. Which combination of ideas from the chapter is MOST directly represented?

- A. Organizing and coordination

✓ **B. Planning and uncertainty reduction**

- C. Controlling and budget allocation
- D. Occupational and legal perspectives

Correct answer: B. *Rationale:* Slides 18 and 20: planning reduces uncertainty by identifying available choices and the possible outcomes of each.

57. A public organization discovers that two departments are performing similar activities while neither department is communicating effectively with the other. Which function is most directly required to address the problem described?

- A. Planning
- B. Organizing

✓ **C. Coordinating**

- D. Controlling

Correct answer: C. *Rationale:* Slide 22: coordination removes conflicts, cross purposes and overlapping situations.

58. A government department receives a specified amount of funds at the beginning of the financial year and must later submit a report describing its achievements. This situation most directly demonstrates:

✓ **A. The controlling function**

- B. The political perspective
- C. The occupational perspective
- D. The supply of essential services

Correct answer: A. *Rationale:* Slide 25: funds are given at the start of the year and each department must "submit reports which contain its achievement"; this is controlling.

59. Which scenario best combines the comprehensive perspective with the public purposes of government?

A. A private company increasing its profit by reducing wages

✓ **B. A government agency providing essential services while pursuing community welfare and positive change**

C. An individual purchasing a private product

D. A company developing a commercial advertising campaign

Correct answer: B. *Rationale:* Slide 8 (serving communities, common good, positive change through goods and services) combined with Slide 14 (supplying essential products and services). (Close inference from the slides.)

60. A student argues: “Public administration means only what government employees do, so there is no need to consider government purposes, public resources, or different levels of government.” Which response is most consistent with the chapter?

A. The argument is fully correct.

B. The occupational perspective alone provides a complete definition.

✓ **C. Public administration should be understood through multiple perspectives and comprehensively.**

D. Public administration is exclusively a legal concept.

Correct answer: C. *Rationale:* Slide 7: PA must be defined “while taking into consideration all the different perspectives”; the occupational view alone is incomplete.

Answer Key — Quiz 1

Chapter One: Public Administration

Section A: True or False

No.	Answer	No.	Answer	No.	Answer	No.	Answer
1	False	8	True	15	True	22	True
2	True	9	False	16	False	23	False
3	True	10	True	17	True	24	True
4	True	11	True	18	True	25	True
5	False	12	False	19	True		
6	True	13	True	20	False		
7	True	14	False	21	False		

Section B: Multiple Choice Questions

No.	Answer	No.	Answer	No.	Answer	No.	Answer
26	B	35	B	44	C	53	B
27	C	36	B	45	B	54	A
28	B	37	C	46	B	55	C
29	D	38	C	47	B	56	B
30	C	39	A	48	C	57	C
31	C	40	D	49	B	58	A
32	C	41	B	50	C	59	B
33	B	42	B	51	C	60	C
34	C	43	A	52	B		

Total items in Quiz 1: 60 (25 true/false + 35 multiple choice).

Quiz 2 — Chapter Two: Difference Between Public and Private Organizations

Source lecture: Chapter Two (Difference Between Public and Private Organizations), Dr. Ayah Rabie, 24 slides.

Original quiz title: Chapter Two Exam: "Difference Between Public and Private Organizations,"

Section One: Write True (T) or False (F).

Note: statements are numbered here in file order; the original file shows no numbers.

- 1. Public organizations and business organizations are both established to achieve certain goals and satisfy specific needs.**

☒ **T. True** ☐ F. False

Correct answer: True. *Rationale:* Ch.2 Slide 3: "Both public and business organizations are established to achieve certain goals and to satisfy specific needs."

- 2. Public organizations generally operate under competition, whereas business organizations operate under monopoly.**

☐ T. True ☒ **F. False**

Correct answer: False. *Rationale:* Slide 7 states the reverse: "Public organizations work under monopoly, while business organizations work under competition."

- 3. National defense, justice, and police services are examples of activities that may be carried out by the government because they cannot easily be provided by individuals or groups on a large scale.**

☒ **T. True** ☐ F. False

Correct answer: True. *Rationale:* Slide 4: "Certain activities can't be offered by individuals or groups at a large scale (as: health care/ national defense/ justice/ police)... carried out by the government."

- 4. The ability of the government to raise funds through taxation is one reason why certain activities are provided by public organizations.**

☒ **T. True** ☐ F. False

Correct answer: True. *Rationale:* Slide 4: "The government can raise funds through taxes."

- 5. In capitalist countries, all utilities such as water, electricity, and transportation must be provided exclusively by public organizations.**

☐ T. True ☒ **F. False**

Correct answer: False. *Rationale:* Slide 6: in capitalist countries "all or some of such utilities are provided by business organizations."

- 6. In socialist countries, utilities such as water supply, electricity, and transportation are provided by public organizations.**

☒ **T. True** ☐ F. False

Correct answer: True. *Rationale:* Slide 6: "In socialist countries all of such utilities are offered by public organizations."

7. Public organizations primarily aim at achieving profits rather than public goals.

T. True

✓ **F. False**

Correct answer: False. *Rationale:* Slide 7: employees of public organizations “aim at achieving public goals not profits.”

8. Public organizations seek to achieve public equality by providing public products and services to citizens at the same quality level.

✓ **T. True**

F. False

Correct answer: True. *Rationale:* Slide 7: public organizations “aim at achieving public equality, by providing public products and services to all citizens at the same quality level.”

9. An increase in government tax revenues necessarily indicates an increase in the efficiency of public organization officials.

T. True

✓ **F. False**

Correct answer: False. *Rationale:* Slide 10: increases in revenue “can never be attributed to the increase in the efficiency of the public organization officials (as: the increase in tax revenues...)”

10. Profit is generally a less suitable measure of performance for public organizations because revenues and expenses are not directly related in the same way as in private organizations.

✓ **T. True**

F. False

Correct answer: True. *Rationale:* Slide 10: “there is no relation between the revenues generated and the expenses incurred, therefore... difficult to use profits as a measure of performance.”

11. Equality among citizens, commitment to social good, and social responsibility can be used as performance measures for public organizations.

✓ **T. True**

F. False

Correct answer: True. *Rationale:* Slide 11: other measures are “Equality among citizens... Commitment to social good... Social responsibility.”

12. Performance evaluation in public organizations is always completely objective and easily measurable.

T. True

✓ **F. False**

Correct answer: False. *Rationale:* Slide 12: “Such measures of performance evaluation of public organizations are subjective.”

13. Public organizations may establish priorities based on public benefit when it is impossible to provide the same service to all citizens simultaneously.

✓ **T. True**

F. False

Correct answer: True. *Rationale:* Slide 12: when all citizens cannot be served at once, “the public organization sets priorities that is based on public benefit.”

14. Public organizations may face negative side effects because they are required to solve serious social problems without necessarily receiving a financial return.

✓ **T. True**

F. False

Correct answer: True. *Rationale:* Slide 9 (negative side effects): organizations “handle solving severe problems without achieving any financial return.”

15. Public organizations have no positive advantages when compared with private organizations.

T. True

✓ **F. False**

Correct answer: False. *Rationale:* Slide 14 lists positive side effects: unlimited access to financial resources and monopolistic legitimacy.

16. Unlimited access to financial resources is identified in the chapter as one positive side effect associated with public organizations.

✓ **T. True**

F. False

Correct answer: True. *Rationale:* Slide 14: "Public organizations enjoy unlimited access to financial resources."

17. Monopolistic legitimacy is related to the fact that public organizations are owned by the government and regarded as part of the executive power.

✓ **T. True**

F. False

Correct answer: True. *Rationale:* Slide 14: "Monopolistic legitimacy: as public organizations are owned by the government and is regarded as a part of the executive power."

18. Institutionalism suggests that an economy consists only of business organizations.

T. True

✓ **F. False**

Correct answer: False. *Rationale:* Slide 15: the economy "consists of a large number of varying organizations (educational/ religious/ cultural/ political/ sportive)."

19. The relationship between public and private organizations is influenced by the political philosophy and economic system of a country.

✓ **T. True**

F. False

Correct answer: True. *Rationale:* Slide 15: relationship is determined by "The nature of the political philosophy... The nature of economic system. The stage of economic development."

20. Public organizations are created primarily to manage projects that are profit-oriented and can easily be implemented by individuals.

T. True

✓ **F. False**

Correct answer: False. *Rationale:* Slide 16: public organizations manage projects that create public good, are non-profit oriented, and "Can not be implemented by individuals or groups."

Section Two: Multiple Choice

21. Which of the following best explains why some activities are provided by governments rather than individuals or groups?

A. They always generate high profits.

✓ **B. They cannot be provided by individuals or groups on a large scale.**

C. They require no financial resources.

D. They are always privately owned.

Correct answer: B. *Rationale:* Slide 4: "Certain activities can't be offered by individuals or groups at a large scale."

22. Which of the following is identified as a major difference between public and private organizations?

- A. Public organizations operate under competition.
- B. Private organizations always provide services equally to all citizens.

✓ **C. Public organizations generally operate under monopoly.**

- D. Private organizations cannot have organizational goals.

Correct answer: C. *Rationale:* Slide 7: "Public organizations work under monopoly, while business organizations work under competition."

23. The primary objective of employees working in public organizations is described as:

- A. Maximizing shareholder wealth

✓ **B. Achieving public goals**

- C. Increasing personal income
- D. Maximizing organizational profits

Correct answer: B. *Rationale:* Slide 7: employees "aim at achieving public goals not profits."

24. Which of the following is NOT listed as a reason why the government can provide certain activities?

- A. The ability to raise funds through taxes
- B. The ability to control citizens' behavior
- C. The ability to achieve certain social objectives

✓ **D. The need to maximize private shareholder returns**

Correct answer: D. *Rationale:* Slide 4 gives two reasons (taxes; control of citizens' behavior); Slide 2 adds the government's social objectives. Maximizing private shareholder returns appears nowhere. Note: option C is also not listed on Slide 4 itself, but it is consistent with Slide 2; D is the only option the lecture contradicts.

25. According to the chapter, the provision of utilities such as water, electricity, and transportation depends partly on:

- A. The age of the organization

✓ **B. The political orientation of the country**

- C. The number of employees
- D. The size of the private sector only

Correct answer: B. *Rationale:* Slide 5: the provider "depends on the political orientation of the country (socialism versus capitalism)."

26. In capitalist countries, utilities may be:

- A. Provided only by public organizations
- B. Provided only by international organizations

✓ **C. Provided by business organizations, either wholly or partly**

- D. Eliminated because they are not economically important

Correct answer: C. *Rationale:* Slide 6: "In capitalist countries all or some of such utilities are provided by business organizations."

27. Which of the following is most consistent with the objectives of public organizations?

✓ **A. Public equality**

- B. Maximum profit
- C. Monopoly for personal gain
- D. Shareholder wealth maximization

Correct answer: A. *Rationale:* Slide 7: public organizations “aim at achieving public equality.”

28. Why can profit be difficult to use as a performance measure for public organizations?

- A. Public organizations never generate revenues.
- B. Public organizations have no expenses.

✓ **C. There is no direct relationship between revenues generated and expenses incurred.**

- D. Public organizations are not allowed to provide services.

Correct answer: C. *Rationale:* Slide 10: “there is no relation between the revenues generated and the expenses incurred.”

29. An increase in tax revenues collected by a government organization:

- A. Always proves that organizational efficiency has increased.

✓ **B. May not necessarily indicate increased efficiency of officials.**

- C. Always demonstrates improved employee productivity.
- D. Is unrelated to government activities.

Correct answer: B. *Rationale:* Slide 10: revenue increases cannot be attributed to the efficiency of officials, e.g., tax revenues.

30. Which of the following is an alternative performance measure for public organizations?

✓ **A. Social responsibility**

- B. Shareholder dividends
- C. Market share
- D. Profit margin only

Correct answer: A. *Rationale:* Slide 11: alternative measures include “Social responsibility.”

31. A public organization decides to pave some roads before others because it cannot pave all roads simultaneously. According to the chapter, this decision should primarily be based on:

- A. Employee preferences
- B. Private profitability

✓ **C. Public benefit**

- D. Political competition

Correct answer: C. *Rationale:* Slide 12: “the public organization sets priorities that is based on public benefit.”

32. Why might citizens in areas that have not yet received a public service feel that social equality has been violated?

✓ **A. They may not understand the priorities established by the organization.**

- B. They are necessarily receiving lower-quality private services.
- C. Public organizations are required to serve only wealthy citizens.
- D. Public organizations cannot establish priorities.

Correct answer: A. *Rationale:* Slide 12: such priorities “may not be easily understood” by citizens in areas not yet served, so they feel equality is violated.

33. Which question reflects one of the difficulties associated with subjective performance measures?

✓ **A. Who is responsible for setting the subjective measures?**

- B. How can private firms maximize profits?
- C. How can shareholders increase dividends?
- D. How can firms increase market competition?

Correct answer: A. *Rationale:* Slide 13: “Who is responsible of setting the subjective measures of performance?”

34. Which of the following is considered a positive side effect of public organizations?

- A. High taxes paid by officials
- B. Solving severe problems without financial returns

✓ **C. Unlimited access to financial resources**

- D. Difficulty in measuring efficiency

Correct answer: C. *Rationale:* Slide 14: “Public organizations enjoy unlimited access to financial resources.”

35. “Monopolistic legitimacy” refers primarily to the fact that public organizations:

- A. Are privately owned but highly profitable

✓ **B. Are owned by the government and regarded as part of the executive power**

- C. Operate exclusively in international markets
- D. Compete with all private organizations

Correct answer: B. *Rationale:* Slide 14: “owned by the government and is regarded as a part of the executive power.”

36. According to the concept of institutionalism, the economy consists of:

- A. Only government organizations
- B. Only business organizations

✓ **C. A large number of varying organizations**

- D. Only nonprofit organizations

Correct answer: C. *Rationale:* Slide 15: the economy “consists of a large number of varying organizations.”

37. Which of the following is NOT identified as a variable determining the relationship between public and private organizations?

- A. Political philosophy
- B. Economic system
- C. Stage of economic development

✓ **D. Employees' personal preferences**

Correct answer: D. *Rationale:* Slide 15 lists three variables: political philosophy, economic system, stage of economic development. Employees' preferences is not one.

38. Public organizations are created to manage projects that:

- A. Are necessarily profit-oriented

✓ **B. Create public goods**

- C. Can always be implemented by individuals
- D. Primarily benefit shareholders

Correct answer: B. *Rationale:* Slide 16: public organizations manage projects that aim at "Creating public good."

39. Which of the following is NOT among the public goals identified in the chapter?

- A. Economic goals
- B. Political goals
- C. Ethical goals

✓ **D. Shareholder wealth goals**

Correct answer: D. *Rationale:* Slides 17 and 23 list economic, political, ethical, spiritual, public health, and sensory/aesthetic goals. Shareholder wealth is not among them.

40. Which economic goal refers to ensuring that essential goods and services are available for survival?

- A. Economic freedom
- B. Economic stability
- C. Economic development

✓ **D. Availability of essential goods and services**

Correct answer: D. *Rationale:* Slide 18, economic goal 1: "Ensuring the availability of goods and services that are essential for survival." (Option D restates this goal.)

41. Economic stability is associated with:

✓ **A. Consistency in providing essential goods and services**

- B. Freedom to choose any occupation
- C. Political stability
- D. Cultural development

Correct answer: A. *Rationale:* Slide 18: "Economic stability: consistency in providing all the essential goods and services."

42. Economic development involves:

A. Reducing the use of resources

✓ **B. Expanding production of goods and services**

C. Eliminating technological development

D. Restricting human skills

Correct answer: B. *Rationale:* Slide 19: "Economic development: expansion in the production of goods and services."

43. Which of the following is an example of economic freedom?

✓ **A. Freedom of consumers to choose**

B. Protecting the prevailing social system

C. Maintaining public health

D. Establishing social equality

Correct answer: A. *Rationale:* Slide 20: economic freedom includes "Consumers having freedom of choice."

44. Which of the following is a political goal of public organizations?

✓ **A. Achieving political stability**

B. Increasing consumer choice

C. Expanding artistic standards

D. Increasing personal income

Correct answer: A. *Rationale:* Slide 21: political goals are reflected in "Achieving political stability."

45. Ethical goals are associated with:

✓ **A. Justice, equality, and freedom**

B. Production, technology, and resources

C. Taxation, customs, and revenues

D. Arts, design, and cultural standards only

Correct answer: A. *Rationale:* Slide 22: ethical goals "are associated with achieving justice/ equality/ and freedom."

46. Spiritual goals are important because they:

A. Determine the amount of tax revenue collected.

✓ **B. Distinguish between what is right and wrong.**

C. Eliminate the need for ethical goals.

D. Focus exclusively on economic development.

Correct answer: B. *Rationale:* Slide 22: spiritual goals "are used to distinguish between what is right and what is wrong."

47. General health goals are associated with:

✓ **A. Maintaining public health for citizens**

B. Achieving economic freedom

C. Increasing competition

D. Expanding private ownership

Correct answer: A. *Rationale:* Slide 23: health goals "are associated with maintaining the public health to all the citizens."

48. Sensory and aesthetic goals are mainly concerned with:

A. Maintaining political stability

✓ **B. Developing the cultural standards of the country**

C. Increasing tax revenues

D. Controlling citizens' behavior

Correct answer: B. *Rationale:* Slide 23: sensory and aesthetic goals “are used to develop the cultural standards of the country.”

49. Why are different groups of public organizations created?

✓ **A. Because each group is designed to achieve a certain public goal.**

B. Because every group must maximize profits.

C. Because public organizations compete with each other.

D. Because governments cannot establish common objectives.

Correct answer: A. *Rationale:* Slide 24: “each group of public organizations are created to achieve a certain goal.”

50. Which combination correctly represents categories of public organizations mentioned in the chapter?

✓ **A. Economic, political, ethical, spiritual, health, and aesthetic**

B. Financial, commercial, competitive, private, international, and technological

C. Marketing, sales, production, finance, accounting, and HR

D. Political, commercial, shareholder, investment, banking, and retail.

Correct answer: A. *Rationale:* Slide 24 lists economic, political, ethical, spiritual, health and aesthetic public organizations.

Answer Key — Quiz 2

Chapter Two: Difference Between Public and Private Organizations

Section One: Write True (T) or False (F).

No.	Answer	No.	Answer	No.	Answer	No.	Answer
1	True	6	True	11	True	16	True
2	False	7	False	12	False	17	True
3	True	8	True	13	True	18	False
4	True	9	False	14	True	19	True
5	False	10	True	15	False	20	False

Section Two: Multiple Choice

No.	Answer	No.	Answer	No.	Answer	No.	Answer
21	B	29	B	37	D	45	A
22	C	30	A	38	B	46	B
23	B	31	C	39	D	47	A
24	D	32	A	40	D	48	B
25	B	33	A	41	A	49	A
26	C	34	C	42	B	50	A
27	A	35	B	43	A		
28	C	36	C	44	A		

Total items in Quiz 2: 50 (20 true/false + 30 multiple choice).

Quiz 3 — Chapter Three: The Economic and Social Dimensions of Public Organizations

Source lecture: Chapter Three (Economic and Social Dimensions of Public Organizations), Dr. Ayah Rabie, 9 slides.

Original quiz title: Chapter Three Exam: “The Economic and Social Dimensions of Public Organizations,”

Section One: True or False

Note: statements are numbered here in file order; the original file shows no numbers.

- 1. Public organizations provide services that can be essential for economic development.**

☒ **T. True** ☐ F. False

Correct answer: True. *Rationale:* Ch.3 Slide 2: “Public organizations offer many public services that are essential for economic development.”

- 2. Transportation, communication, and energy are identified as essential public services for economic development.**

☒ **T. True** ☐ F. False

Correct answer: True. *Rationale:* Slide 2: “1- Transportation services 2- Communication services 3- Energy services.”

- 3. An efficient transportation system only facilitates the movement of finished goods.**

☐ T. True ☒ **F. False**

Correct answer: False. *Rationale:* Slide 3: transportation facilitates moving “raw materials, semi-finished products, and finished goods.”

- 4. Efficient transportation can contribute to increasing production volume.**

☒ **T. True** ☐ F. False

Correct answer: True. *Rationale:* Slide 3: efficient transportation results in “Increasing the production volume.”

- 5. Transportation services can facilitate the delivery of public goods.**

☒ **T. True** ☐ F. False

Correct answer: True. *Rationale:* Slide 3: it results in “Ease of delivery of public goods.”

- 6. Communication services have no significant relationship with acquiring raw materials from suppliers.**

☐ T. True ☒ **F. False**

Correct answer: False. *Rationale:* Slide 4: communication facilitates “Acquiring raw materials from suppliers.”

- 7. An efficient communication system facilitates the signing of contracts.**

☒ **T. True** ☐ F. False

Correct answer: True. *Rationale:* Slide 4: communication facilitates “Signing contracts.”

8. Acquiring finance is one of the activities facilitated by effective communication services.

☒ **T. True** ☐ F. False

Correct answer: True. *Rationale:* Slide 4: communication facilitates “Acquiring finance.”

9. Energy services are essential only for production programs and have no relevance to marketing programs.

☐ T. True ☒ **F. False**

Correct answer: False. *Rationale:* Slide 4: energy is essential for “all production and marketing programs.”

10. Some countries depend exclusively on public organizations for certain services.

☒ **T. True** ☐ F. False

Correct answer: True. *Rationale:* Slide 5: “In some countries, some services are provided exclusively by public organizations.”

11. Telecommunication, natural gas, water, and electricity are examples of services that may be provided exclusively by public organizations in some countries.

☒ **T. True** ☐ F. False

Correct answer: True. *Rationale:* Slide 5: “Telecommunication services, Natural gas, Water, Electricity.”

12. All public services are necessarily provided exclusively by public organizations in every country.

☐ T. True ☒ **F. False**

Correct answer: False. *Rationale:* Slide 5 says “in some countries, some services,” not all services in every country.

13. The social dimension of public services includes services such as social security and fighting unemployment.

☒ **T. True** ☐ F. False

Correct answer: True. *Rationale:* Slide 6: social services include “Social security. Fighting unemployment.”

14. The continuity principle recognizes that some public services are irreplaceable.

☒ **T. True** ☐ F. False

Correct answer: True. *Rationale:* Slide 7: “Since the services offered by public organizations are irreplaceable...”

15. Under the continuity principle, employees of public organizations are always free to strike whenever they wish.

☐ T. True ☒ **F. False**

Correct answer: False. *Rationale:* Slide 7: “strikes in public organizations is totally prohibited.”

16. Laws may regulate the activities of public organizations because interruption of certain public services can have serious consequences.

☒ **T. True** ☐ F. False

Correct answer: True. *Rationale:* Slide 7: because services are irreplaceable, “laws are set to regulate the work of public organizations.” (The phrase “serious consequences” is the statement’s paraphrase of this reasoning.)

17. The principle of keeping pace with new needs requires public organizations to remain compatible with changing citizens' needs.

☒ **T. True** ☐ F. False

Correct answer: True. *Rationale:* Slide 8: organizations “should be subject to continuous developments to be compatible with the changing needs of the citizens.”

18. The introduction of internet services is given as an example of keeping pace with new needs.

☒ **T. True** ☐ F. False

Correct answer: True. *Rationale:* Slide 8: “E.g., the introduction of internet services.”

19. The equality principle requires eligible citizens to be treated equally when acquiring public organization services.

☒ **T. True** ☐ F. False

Correct answer: True. *Rationale:* Slide 8: “All citizens capable of acquiring the services offered by the public organization should be equally treated.”

20. The equality principle means that every person, regardless of eligibility, must receive every public service.

☐ T. True ☒ **F. False**

Correct answer: False. *Rationale:* Slide 8 applies equality only to citizens “capable of acquiring the services,” not to everyone regardless of eligibility.

21. The principle of exclusion of the profit target means that public organizations do not aim at achieving profits.

☒ **T. True** ☐ F. False

Correct answer: True. *Rationale:* Slide 9: “Public organizations do not aim at achieving profits.”

22. The fact that citizens pay fees for public services means that public organizations necessarily make profits.

☐ T. True ☒ **F. False**

Correct answer: False. *Rationale:* Slide 9: fees “in most cases... do not cover the cost of offering the services,” so fees do not imply profit.

23. Fees charged for public services often do not cover the full cost of providing those services.

☒ **T. True** ☐ F. False

Correct answer: True. *Rationale:* Slide 9: “such fees; in most cases; do not cover the cost of offering the services.”

24. Subsidized bread is presented as an example related to the exclusion of the profit target.

☒ **T. True** ☐ F. False

Correct answer: True. *Rationale:* Slide 9: “Ex.: subsidized bread.”

25. The four principles discussed in the chapter include continuity, keeping pace with new needs, equality, and exclusion of the profit target.

☒ **T. True** ☐ F. False

Correct answer: True. *Rationale:* Slide 6 lists: continuity, keeping pace with the new needs, equality, and exclusion of the profit target.

Section Two: Multiple Choice Questions

Note: the first multiple-choice question is unnumbered in the original file and is shown as Q26.

26. Which of the following represents the economic dimension of public organizations discussed in the chapter?

A. Social security only

✓ **B. Transportation, communication, and energy services**

C. Fighting unemployment only

D. Cultural and artistic activities

Correct answer: B. *Rationale:* Slide 2: the economic dimension comprises transportation, communication and energy services.

27. An effective transportation system contributes to economic development primarily by:

A. Preventing the movement of raw materials

✓ **B. Facilitating the transportation of raw materials, semi-finished products, and finished goods**

C. Eliminating the need for production

D. Increasing service fees

Correct answer: B. *Rationale:* Slide 3: an efficient system “facilitates transporting raw materials, semi-finished products, and finished goods.”

28. Which of the following is a direct result of an efficient transportation system mentioned in the chapter?

✓ **A. Increasing production volume**

B. Eliminating communication services

C. Reducing access to raw materials

D. Increasing unemployment

Correct answer: A. *Rationale:* Slide 3: “That results in: Increasing the production volume.”

29. Transportation services contribute to economic development by facilitating:

✓ **A. The delivery of public goods**

B. The elimination of contracts

C. The restriction of production

D. The elimination of energy requirements

Correct answer: A. *Rationale:* Slide 3: “Ease of delivery of public goods.”

30. Which of the following is NOT specifically identified as an activity facilitated by effective communication services?

A. Acquiring raw materials from suppliers

B. Signing contracts

C. Acquiring finance

✓ **D. Manufacturing energy**

Correct answer: D. *Rationale:* Slide 4 lists acquiring raw materials, signing contracts and acquiring finance. Manufacturing energy is not listed.

31. An efficient communication system can facilitate the acquisition of finance because it:

✓ **A. Supports communication necessary for financial activities**

- B. Eliminates the need for financial resources
- C. Prevents organizations from signing contracts
- D. Replaces transportation systems

Correct answer: A. *Rationale:* Slide 4: communication facilitates “Acquiring finance.” (A is the only option consistent with this.)

32. According to the chapter, energy services are essential for:

- A. Production programs only
- B. Marketing programs only

✓ **C. Both production and marketing programs**

- D. Social security programs only

Correct answer: C. *Rationale:* Slide 4: energy is essential “for implementing all production and marketing programs.”

33. Which combination correctly identifies the three public services considered essential for economic development?

✓ **A. Transportation, communication, and energy**

- B. Education, health, and tourism
- C. Banking, insurance, and retailing
- D. Security, justice, and defense

Correct answer: A. *Rationale:* Slide 2: transportation, communication and energy services.

34. The statement that some countries have full dependency on services provided by public organizations means that:

- A. Every service in every country is publicly provided.

✓ **B. Certain services may be provided exclusively by public organizations in some countries.**

- C. Private organizations cannot provide any service.
- D. Public organizations provide only social services.

Correct answer: B. *Rationale:* Slide 5: “In some countries, some services are provided exclusively by public organizations.”

35. Which of the following is listed as an example of a service that may be provided exclusively by public organizations?

✓ **A. Natural gas**

- B. Restaurants
- C. Clothing
- D. Advertising

Correct answer: A. *Rationale:* Slide 5: “Telecommunication services, Natural gas, Water, Electricity.”

36. Which of the following represents the social dimension of public services?

✓ **A. Social security and fighting unemployment**

- B. Transportation and energy
- C. Signing contracts and acquiring finance
- D. Production and marketing

Correct answer: A. *Rationale:* Slide 6: social services such as “Social security” and “Fighting unemployment.”

37. Which of the following is NOT one of the four principles employed by public organizations?

- A. Continuity
- B. Equality

✓ **C. Profit maximization**

- D. Keeping pace with new needs

Correct answer: C. *Rationale:* Slide 6 lists four principles; profit maximization is not one (the fourth is exclusion of the profit target).

38. The continuity principle is based primarily on the idea that:

- A. Public services can easily be replaced by private services.

✓ **B. Some public services are irreplaceable and therefore should continue.**

- C. Public organizations should maximize profits.
- D. Citizens should receive different levels of service.

Correct answer: B. *Rationale:* Slide 7: services are irreplaceable; therefore laws regulate public organizations.

39. Why are laws used to regulate the work of public organizations under the continuity principle?

- A. To encourage service interruptions

✓ **B. Because interruption of certain public services is considered unacceptable**

- C. To maximize organizational profits
- D. To eliminate public services

Correct answer: B. *Rationale:* Slide 7: laws are set because the services are irreplaceable (reasoning stated on the slide).

40. According to the chapter, strikes in public organizations are:

- A. Completely encouraged

✓ **B. Totally prohibited**

- C. Required during periods of economic difficulty
- D. Necessary for maintaining equality

Correct answer: B. *Rationale:* Slide 7: “strikes in public organizations is totally prohibited.”

41. The principle of keeping pace with new needs requires public organizations to:

A. Remain unchanged regardless of citizens' needs

✓ **B. Continuously develop to match changing citizens' needs**

C. Focus exclusively on profits

D. Reduce the number of services offered

Correct answer: B. *Rationale:* Slide 8: "continuous developments to be compatible with the changing needs of the citizens."

42. Which of the following is used in the chapter as an example of keeping pace with new needs?

✓ **A. Introduction of internet services**

B. Elimination of transportation

C. Reduction of electricity services

D. Increasing service fees

Correct answer: A. *Rationale:* Slide 8: "E.g., the introduction of internet services."

43. The equality principle requires that:

A. Only wealthy citizens receive public services.

✓ **B. All eligible citizens should be treated equally when acquiring public services.**

C. Citizens should receive services according to their income.

D. Public organizations should provide different service quality to different groups.

Correct answer: B. *Rationale:* Slide 8: "All citizens capable of acquiring the services... should be equally treated."

44. Which statement best reflects the equality principle?

A. Every individual must receive every service regardless of eligibility.

✓ **B. Eligible citizens should be treated equally in obtaining public organization services.**

C. Public organizations should prioritize high-income citizens.

D. Public organizations should provide services according to profitability.

Correct answer: B. *Rationale:* Slide 8: the equality principle applies to citizens capable of acquiring the services.

45. The principle of exclusion of the profit target means that public organizations:

A. Never charge citizens any fees.

✓ **B. Do not aim at achieving profits.**

C. Must always operate at a loss.

D. Cannot provide essential services.

Correct answer: B. *Rationale:* Slide 9: "Public organizations do not aim at achieving profits."

46. Why can public organizations charge fees while still following the principle of exclusion of the profit target?

A. Because fees necessarily generate high profits.

✓ **B. Because fees usually do not cover the full cost of providing the services.**

C. Because fees eliminate government responsibility.

D. Because public organizations become private organizations when they charge fees.

Correct answer: B. *Rationale:* Slide 9: fees “in most cases... do not cover the cost of offering the services.”

47. Which of the following is the best example of the exclusion of the profit target?

A. A public organization charging a fee that exceeds its costs to maximize profit

✓ **B. A public service charging a fee that does not fully cover its cost**

C. A private company maximizing shareholder returns

D. A business organization increasing its profit margin

Correct answer: B. *Rationale:* Slide 9: fees that do not cover cost, e.g., “subsidized bread.”

48. A government introduces an online service platform to respond to citizens' changing expectations. Which principle is most directly reflected?

A. Equality principle

B. Continuity principle

✓ **C. Keeping pace with new needs**

D. Exclusion of the profit target

Correct answer: C. *Rationale:* Slide 8: keeping pace with the changing needs of citizens, e.g., internet services.

49. A public organization continues providing an essential service despite the fact that stopping it would seriously affect citizens. Which principle does this best illustrate?

✓ **A. Continuity principle**

B. Profit principle

C. Competition principle

D. Investment principle

Correct answer: A. *Rationale:* Slide 7: continuity principle — services are irreplaceable and must not be interrupted.

50. Which of the following correctly matches each principle with its central idea?

A. Continuity → profit maximization

B. Equality → different treatment of eligible citizens

✓ **C. Keeping pace with new needs → adapting services to changing citizen needs**

D. Exclusion of profit target → maximizing financial returns.

Correct answer: C. *Rationale:* Slide 8: the keeping-pace principle means adapting services to the changing needs of citizens.
